

Corrosion Service was founded in 1950 by Thomas R.B. Watson as the first Canadian firm to specialize in cathodic protection. Our founding philosophy was based on the principles of providing great customer service and developing a deep understanding of customer needs, these same core principles still guide our company today.

Throughout our history we have always been privately owned by successive groups of employees that have risen through the organization. This ownership structure gives us a unique perspective on business and ensures that our stakeholders (customers, employees and partners), rather than shareholders, always come first. This is vital for a company such as ours, given that we exist primarily to protect the environment, our citizens and the prosperity of the communities in which we live. This position is in our Edmonton location.

Position: Computer Assisted Design and Drafting Technologist

Responsibilities:

- AutoCAD drawing support for engineering and regional groups.
- Generate and update drawings based on direction of others.
- Adherence to internal and client standards.
- Assist in peer reviews of drawings for quality and accuracy.

Qualifications:

- College graduates with Engineering Technology diploma preferred.
- Two years of experience from graduation or coursework in the specific use of AutoCAD.
- Advance knowledge and experience in use of AutoCAD or similar software required.
- Experience with different standards in the use of CAD software.
- Previous experience with relevant mechanical, electrical, or construction design experience will be considered a major advantage for this role.
- Strong analytical, problem solving, and written communication skills required.
- Experience working with project managers is an asset.
- Overtime may be required to meet customers expectation.

We are an organization where you can apply your skills to some of the world's most challenging, and interesting projects nationwide. It is a place that values the diversity of our areas of practice and our people. It's what makes Corrosion Service a great place to work and grow. Corrosion Service is an Equal Opportunity Employer. If you would like to work in a stimulating environment with the prospect of developing your potential, we invite you to explore the possibility of joining our team.
