

Expert Witness Services

Expert Witness—Impartial Corrosion Expertise

When you need an independent and expert opinion to settle corrosion related disputes, CSCL is one of the few companies in the world with the knowledge to ensure a just outcome.

Experienced

As one of North America's oldest and best known integrity engineering companies, Corrosion Service Company Limited (CSCL) possesses the unparalleled knowledge and experience required to provide expert witness services and litigation support. Our areas of engineering expertise, gathered over many decades at the cutting edge of engineering, include corrosion, cathodic protection, AC mitigation and integrity management.

Knowledgeable

Our senior engineers are pre-eminent in their respective fields and have a detailed knowledge of materials, electrochemistry, construction, maintenance, provincial/federal codes and standards. They advise on individual cases in an independent, impartial and technically astute manner, so that our clients can be sure of a fair and equitable determination. Supported by the technical resources of a global leader in integrity engineering, our senior engineers are positioned to provide strong support, with the expertise required to address any issue.

Features & Benefits

- + Deep knowledge of corrosion failure and the mitigation tools and techniques required for prevention.
- + Decades of pre-eminent experience with a global reputation for research and development in the field of corrosion prevention.
- + Fully impartial and independent.

Our Experts

Expert Witness/Testimony Support

Bob Gummow

Bob (Robert) Gummow is a Senior Technical Engineer at Corrosion Service Company Limited (CSCL). He has been with CSCL since 1962 serving in various capacities, including formerly Vice President Engineering, President and CEO. Bob is a renowned expert in all areas of electrochemical corrosion prevention, having been awarded the NACE Technical Achievement Award (1989, 1992), NACE Brannon Award (2004), Col. Charles C. Cox Award (2013) and most recently NACE Fellow Honor 2016. Bob has a Bachelor's degree in electrical engineering from the University of Toronto, Canada and is a NACE certified Corrosion Specialist and a Professional Engineer.

Sorin Segall

Sorin Segall is Vice President of Technical Engineering at Corrosion Service Company Limited (CSCL). He has been with CSCL since 1993; specializing in corrosion engineering, including cathodic protection, mitigation of AC induced voltages and AC enhanced corrosion and direct assessment of external corrosion. He has a Masters degree in electrical engineering from the University of Bucharest, Romania, and is a NACE certified Cathodic Protection Specialist and a Professional Engineer.
